Tryout/Player Evaluations:

Player evaluations are one of the most challenging tasks for our association to complete.

Objectives of Player Evaluation

- To provide a fair and impartial assessment of a player's total hockey skills during the skill, compete and scrimmage sessions
- To ensure that players have a reasonable opportunity of being selected to a team appropriate to their skill levels as determined during the on-ice evaluations of the current year.
- To provide uniformity and consistency in the evaluation process such that a player and parent expectations are consistent from year to year as players move through the various levels of our programs
- To form teams which maintain balanced and competitive play where the athletes can develop and participate equitably and have fun to play hockey during the season.
